Dear Jim, 9/1/92

Thanks for the clipping. Either I missed it or it was not in the early paper we get. It refers to the Bronson film.

Mike Snyder of KXAS - NTV, Fort Worth, taped me for some shows he did fof a week on their news. Buck Revill, new Dallas FBI SAC, was interested and spoke to him about that, the Bronson film.

According to what Snyder told me that Revill said, he believed it should be enhanced.

But I've not heard that it has been enhanced.

And it may all have been just talk.

But as I recall what Snyder told me, Revill was not unfriendly and made no complaints about the shows.

Which doubled the ratings in that week without airing a single theory!

Best,

Harold
